WHEREAS, the board of trustees of Caterpillar Trail Public Water District has determined that it is necessary to adjust the current rates and fees charged by the District, in order to provide sufficient funds for the increased cost of maintenance and operation of the District associated with actual and anticipated price inflation of materials purchased by the District for operation of its water treatment plant; and

WHEREAS, the board of trustees of Caterpillar Trail Public Water District has determined that the national Consumer Price Index published by the U.S. Department of Labor, known as CPI-U all items, provides an appropriate basis for annual adjustment of the District's rate and fee schedules, in order to cover increased costs of the District associated with inflation; and
